Montana

MONTANA MEGA

MONTANA ACADEMY

Montana goes Mega

Montana is introducing Montana Mega.

A mega-size *20-wide module that comes in 9 designs with set heights and configurations. Available on plinth and legs only – the mega-modules is a new look and an easier choice.

With a mix of fixed divisions and fronts, the 9 designs in 3 heights accomodate a multitude of functions. Let your imagination run wild with our 41 water-based lacquer colours.

Depth 38 cm

	***20** 115.2 cm	***20** 115.2 cm	***20** 115.2 cm
***18** 103.8 cm	 201801	 201802	 201803

Colours

Colours are never static, never boring, never quite the same.

Montana Mega gives you the perfect platform to create your personal colour combination.

With a fixed component design, it allows you to explore the 41 water based lacquers which Montana offers.

Montana colours have been developed in collaboration with colour expert Margrethe Odgaard, to have both a visual and sensory appeal, all intertwined in a close-knit family that will match no matter how you choose to combine them.

Techinal information

Montana Mega modules delivered with legs will have a support rail attached underneath the module. Support rail SS60 is there to add stability and increase the weight capacity for the module. The rail is a 2.5 cm high, V-shaped and lacquered to match the module colour.

Total load capacity for Montana Mega
Legs: 50 kg.
Plinth: 60 kg.
Load capacity for shelves: 10 kg.

Legs

Height: 12.6 cm (height-adjustable feet up to 20 mm)

Colours: Matt chrome, brass and all 41 Montana lacquer colours.

Units: Suited from width 24 cm (*4) to 69.6 cm (*12). Units in width 69.6 cm (*12) must always be fitted with a suspension rail SS60 under the bottom panel.

Mounting: Bushings for mounting included. Legs cannot be mounted under mo-dules with depth 20 cm.

Max load for a set of legs (min. 4): 75 kg

MONTANA

Montana Mega 201202 with legs and handles in brass.

Plinth

Height: 3 and 7 cm (8-46 cm)

Width: is indicated with the star measurement.

Depth: 2-4 cm shorter thank the actual depth of the module to allow space for skirting boards.

Plinths are connected and levelled before placing the modules. All plinths are fitted with adjustable feet.

Installation of plinths under modules with a depth of 20 cm with door is at the customer's own risk.
