Our so-called "tools for togetherness" know no boundaries. Whether you're creating a cozy garden terrace, a charming sidewalk café or refreshing your office space, each product is designed to bring friends, family or colleagues together in new ways. Explore the versatility by category to inspire any indoor or outdoor space.

Why on earth

At Extremis, we only start developing an idea if it is both necessary and useful.

TOOLS FOR TOGETHERNESS

We strive to create ideas that are loved for their personality, embraced for their quality, and cherished for their impact, as true tools for togetherness.

Immortal ideas

We aim to inspire the future by changing today's way of thinking.

Lasting materials

We employ only the highest quality materials and cutting-edge processes.

Carefully designed

The best way to make a product last, however, is to make it beautiful. In every aspect.

With positive impact

Designs that have the power to spark meaningful connections and enhance the way we interact with one another.

Abachus

© Design by Dirk Wynants for Extremis, 2009

Abachus is a high table with a little extra: when standing up, you can lean against one of its six arms, providing the minimal comfort you need to honor Bacchus, the god of wine, with your friends.

Abachus is – needless to say
– the perfect furniture for a
wine tasting.

Lean your way into the arms of winter and Abachus. The 6 rubber arms don't soak up any water and stay warm to the touch. A warm and dry bum is guaranteed!

Abachus

Thanks to its solid design and carefully selected materials, Abachus is capable of withstanding all weather conditions. Abachus combines perfectly with the small Inumbrina parasol. The optional integrated ashtray (available in small or large) stops people from dropping their cigarette butts on the floor.

Acacia

© Design by Dirk Wynants for Extremis, 2018

Imagine you’re in the savannah with this compact, asymmetrical shade. Turn Acacia to follow the sun and create a shadow wherever you want. Just like the African tree it is named after, this shade captures a maximum of sunshine with a minimum surface area.

Acacia

This eccentric shade is intended to be directed towards the sun to create just as much shade as a large parasol would. Just like the African acacia tree that evolved to capture as much sun as possible with the smallest leaf canopy, Acacia casts shade wherever you like with a relatively small surface area.

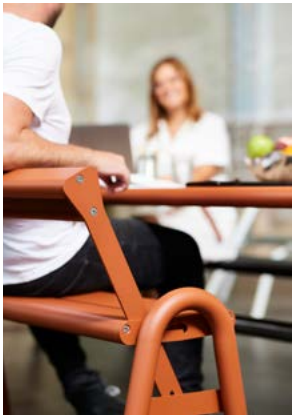
AMAi

© Design by Dirk Wynants for Extremis, 2021

Furniture that is as flexible as your lifestyle: meet AMAi, a true marvel of multifunctionality. Take every moment to new heights with the adjustable tabletop, lights, electricity, a kitchen and a sunshade.

All our designs are original creations and protected by intellectual property rights.

This coworking space in a former chapel, brings people together around the AMAi to share ideas and get some work done. Standing or seated, under the supervision of the Holy Mary, you'll be blessed with sublime workday!



An effortless dinner event with friends or a focused brainstorm session with colleagues? AMAi is a landing place for togetherness, adapting instantly to every new experience.

Preparing lunch whilst standing up or appreciating the freshly cooked meal seated down? You don't need multiple tables for that, simply adapt the tabletop to every occasion.

→
This trendy and laid-back coffee shop is the perfect setting for the AMAi table in galvanized steel. While the metallic and white colors match the industrial feel, the oak veneer complements the low-slung lighting and potted plants. An ideal spot to enjoy a latte with some home-made cake!

It’s time to steal the show! With the perfect height to prepare meals and drinks, and convenient storage, accessible from all sides, you have an outdoor cooking corner to share delicious togetherness with friends. Share a glass at the bar, throw together a meal and eat at the high or low table, at daytime or under the night sky, AMAi is a table without limits.

Tailor AMAi to your needs: a high table or rather a traditional height? Comfortably seated or standing up? This table brings focus and fun to each workday at Creax, Belgium.

AMAi is the flexibility that you desire, all the time, indoors and outdoors. Two A-shaped side frames provide a solid construction. In between these frames, you can position the tabletop into two heights: standard or high. Thanks to the innovative design, even a single person can smoothly slide the tabletop from 'sitting height' into 'standing height' and vice versa.

→
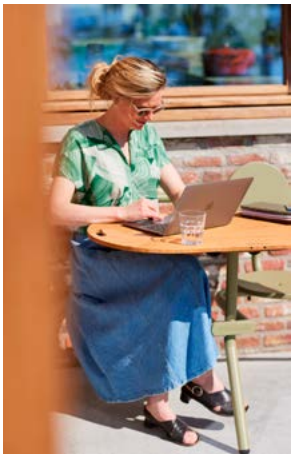
In the ever-sunny South of France, Bistroo enriches the garden of this seaside villa. It's the perfect spot to close your eyes and listen to the birds singing their morning songs.

With Bistroo around, you'll gladly exchange the office for a moment in the sun! Thanks to the tabletop extension, you easily create some extra space without losing the charms of this jaunty table.



When you see the Bistroo you will immediately realise what the double 'oo' is all about. The rounded backrests provide support as you sit side by side, watching the world go by. Three legs, two seats and one tabletop are the basis of this innovative concept. This design makes it perfectly stable on any surface, and it is faster to stack and lock away than individual tables and chairs.

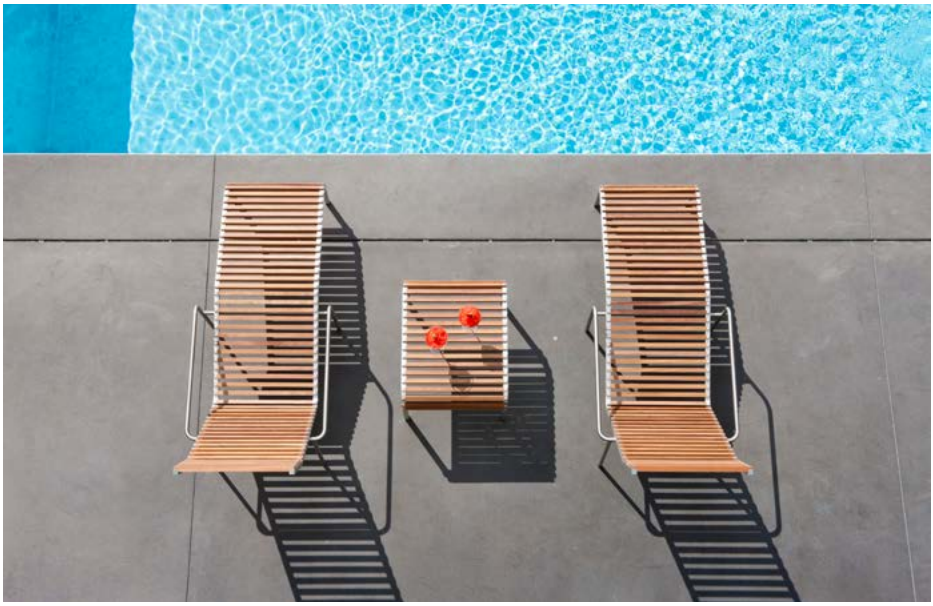
Extempore

© Design by Arnold Merckx for Extremis, 1998

Extempore is the architectural range of tables, benches and chairs Arnold Merckx created for Extremis. As Extempore comes in a vast variety of different possibilities, any need can be satisfied within one range.

All our designs are original creations and protected by intellectual property rights.



Sunny day at a private city garden with pool.

A cozy dinner party with friends on a rooftop terrace in New York / USA.

Extempore is a classic, yet very sturdy, weather-resistant collection that lasts a lifetime.

The tall, sunny porch is just the place to enjoy a Sunday afternoon coffee. It feels like an extended room with giant glassless windows. A front row seat with a garden view.

Extempore

Extempore is our most extensive range and owes its popularity to its pure architectural beauty and everlasting materials. The range's extensive nature is clearly exemplified by the large choice of table sizes, each with matching chairs or benches, and the foot rest, lounge chair and sun lounger that are also included in the range.

Gargantua

© Design by Dirk Wynants for Extremis, 1994

According to an American study, parents and children currently only spend an average of 15 minutes together per day. To improve the quality of this togetherness, Dirk Wynants wanted to create a table where children could comfortably sit at the same height as the adults to enable better communication.

All our designs are original creations and protected by intellectual property rights.

Hopper bench

© Design by Dirk Wynants for Extremis, 2010

Registered in the U.S. Patent and Trademark Office

A quick change of scenery? This versatile bench can be used in more than one way. Take a seat on the bench or turn around to the opposite direction - the backrest now doubles as a tabletop. This design adds comfort to each street, rooftop, garden or balcony.

All our designs are original creations and protected by intellectual property rights.

To create an attractive and lively urban area, Okayama city in Japan has placed 30 Hopper benches along the main street. By shifting from a 'car-centered' to a 'people-first' area, the city has created a spacious area that is fun to walk along. Now, people from all ages feel comfortable using the public space that has shifted from a parking space into a meeting area.

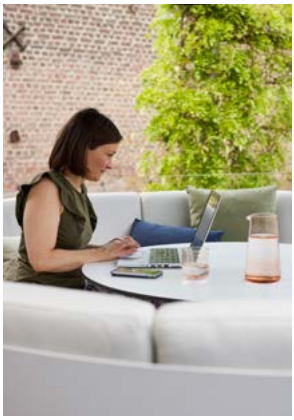
Kosmos

© Design by Dirk Wynants for Extremis, 2008

Kosmos is inspired by a yachts' cockpit: “When space is limited, like on a boat, we need to be more creative.” Kosmos is the alternative to a combination of table, chairs, lounge chairs, sun protection, and so on. All functionalities combined in one!

All our designs are original creations and protected by intellectual property rights.

Kosmos is the perfect all-in-one piece of furniture. Working outside or lounging in the sun, you choose!

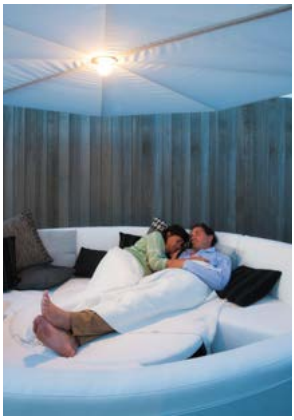


→
City rooftop terrace by landscape architect 'De Telder Tuinen', Ghent.

A moment to put your feet up or a cushy chat? Kosmos is a tiny world where all is possible! The black coated shell combines perfectly with the charcoal cushions, an elegant marriage with the architecture of this residence.

→
Library of University college
'Vives', Bruges.

HELL



Spend an entire day in Kosmos. Talk, eat, siesta, repeat.

Kosmos

Kosmos has a round shape for more intense conversations and cosier cuddling at night. At its lowest position, the optional adjustable table offers a completely flat surface, transforming Kosmos into a giant lounger. This multi-purpose set takes you right through the day – from breakfast to sunbathing – without stuffing your roof terrace full of furniture.

Kosmos shade

© Design by Dirk Wynants for Extremis, 2008

We wanted to devise an umbrella that did not stand in the way when it was closed. The original (and patented) innovation is that it simply opens and closes horizontally like a fan… Or a bird’s wings. Design by nature!

All our designs are original creations and protected by intellectual property rights.

Creating elegant shade to your pool sofa? The Kosmos square shade is a freestanding umbrella that supports a clean and balanced look while adding ample shade.

←
Idyllic pontoon, Lake Lucerne / Switzerland.

Kosmos shade

Kosmos shade is an ingenious design that opens horizontally like a fan, offering excellent wind resistance (wind force 6 on the Beaufort scale). It hangs low enough to provide lots of shade, and is perfect for placing next to the Kosmos table and seat combination or any other furniture. Hidden magnets keep the shade open.

Marina

© Design by Metrica for Extremis, 2012

This particular design once again shows the 'Tools for Togetherness' philosophy of Extremis. The seemingly endless table is perfect for entertaining large groups of guests, friends and family.

All our designs are original creations and protected by intellectual property rights.

The reed green Marina picnic is the preferred table for an outdoor lunch.

→
This Marina combo set with matching Captain's Chairs in a gorgeous earth color integrates effortlessly into a natural landscape or urban setting.

↑
The Trinseo lunchroom by BroekBakema and Aerts&Co is not your everyday - dull - canteen, it's more like a contemporary coffee shop with a hanging jungle garden. At the Marina combo table, employees find a spot to get to know new colleagues while having enough space to enjoy that well-deserved lunch.

←
The Marina combo table enriches this patio. Notice how there's also a Marina placed indoors, what a flued transition between outside and inside.

↑

The fixed benches or a Captain's Chair? At the Papyrus white Marina combo, you always gather gracefully.

Escaping from the indoor office-buzz works wonders. Meetings and brainstorms mostly happen outside the Extremis HQ meeting rooms. Can you blame us?

Marina

A table that can be as long as your guest list or as short as you need for a family of four: the Marina is designed for intimate gatherings or large meetings. You and your guests can easily move about and engage with everyone. This table is the ultimate conversation playground.

Pantagruel

© Design by Dirk Wynants for Extremis, 2014

Pantagruel is the son of Gargantua. Refined elements and a handy Lazy Susan were added. Besides a picnic version there's also a table and high table. All perfect tools to enjoy the good things in life.

Picnik

© Design by Dirk Wynants & Xavier Lust for Extremis, 2002

The launch of this design elevated a simple ‘tête à tête’ to an extremely romantic or even philosophical converse. Picnik became a real design classic, thanks to its iconic shape.

All our designs are original creations and protected by intellectual property rights.

Picnik

This table for two is in fact much more than just a table seating two people. Picnik was of course primarily designed as a table and bench seat combination for small outdoor spaces. But thanks to its striking looks – both solid and stylized at the same time – Picnik is also frequently used indoors. One flat aluminium sheet is transformed into a Picnik, thanks to a number of strategic incisions and folds.

Combined with Captain's Chairs this extra-wide table easily seats eight or more loved ones.

Ponstūn

This extra wide and long wooden dining table looks like a pontoon boat taken ashore. The folded steel legs that support the spacious, but thin tabletop were inspired by origami. Sensu

© Design by Dirk Wynants for Extremis, 2022

This free hanging, tilting shade combines the serenity of flat design with the functionality of a hand fan system. Thanks to its unique design, Sensu catches the sun with a variety of positions and doesn’t take up any space on your table.

All our designs are original creations and protected by intellectual property rights.

With a rotating and tilting feature, this Papyrus white Sensu offers refreshing shade where most needed throughout the day. A light lunch at the Marina combo and later a dive in the pool… Who doesn't love to indulge in the summertime?

A big patio and a big sofa… need much shade? Not an issue for this Sensu duo diamond shade. With two canopies hanging on the same pole, this shade doesn't take up important patio space, while casting a vast shadow.

Offering refreshing shade is a must when offering delicious dishes, preferably without cutting out on patio space with different parasol poles and bulky bases. Thanks to the smart design, the Sensu Quattro diamond effortlessly casts a shadow of almost 30m^2. Four floating canopies are all attached to the same central pole that can be fixed in the ground. Tripping hazards and a loss of space are now a thing of the past; it's time to enjoy a refreshing lunch!

The flat canopy of the Sensu shade has a calming effect on any patio. The floating shade opens horizontally and thanks to its unique tilting and rotating design, it follows the sun throughout the day without effort. The perfect tool for a cool moment!

Lofty lounging becomes a dream come trough on this rooftop patio. The Sensu duo diamond throws some welcome shade without taking up any precious space. With built-in storage pouches, the Walrus pillows are easily stored in the sofa itself, which is quite a bonus on the 23rd floor.

Sensu

This free-hanging cantilever parasol combines the beauty of flat design with the functionality of a hand fan system. Unlike traditional center-pole umbrellas, Sensu doesn't take up any space on and under your table - both opened and closed. Rotate and/or cantilever the white, taupe, or black shade to follow the sun throughout the day.
